Tropical Science

The quarterly journal of the Tropical Products Institute

EDITOR : S. S. BAMPTON, B.Sc., PH.D.

ASSISTANT EDITOR : MISS M. KERSHAW, B.Com.

1963, *Vol. V*

Contents

ARTICLES *page*

Method of Drying Groundnuts. I. (Natural). By Mrs. S. M. Blatchford and D. W. Hall, *Tropical Stored Produce Liaison Department, Pest Infestation Laboratory*, Slough 6

A Recent Development in the Small Scale Extraction of Palm Oil. By J. A. Cornelius, *Tropical Products Institute* 34

Growth of *Aspergillus flavus* and Production of Aflatoxin in Groundnuts—Part I. By S. S. Bampton, *Tropical Products Institute* . . 74

Methods of Drying Groundnuts. II.. (Artificial) By Mrs. S. M. Blatchford and D. W. Hall, *Pest Infestation Laboratory*, Slough . 82

The Ackee: A Review. By J. R. Plimmer, *University of the West Indies*, and C. E. Seaforth, *University of Nigeria* 137

Growth of *Aspergillus flavus* and Production of Aflatoxin in Groundnuts—Part II. By D. McDonald and C. Harkness, *Ahmadu Bello University, Nigeria* 143

Methane Gas Production by Batch and Continuous Fermentation Methods. By W. H. Boshoff, *Makerere University College, Uganda* 155

The Fertility Potentialities and Needs of Tropical Soils. By H. L. Richardson, *Food and Agriculture Organization of the United Nations*, Rome 166

Biological Control of Pests in the Tropics. By F. J. Simmonds, *Commonwealth Institute of Biological Control*, Curepe, Trinidad . 200

Growth of *Aspergillus flavus* and Production of Aflatoxin in Groundnuts—Part III. By D. McDonald and J. A'Brook, *Ahmadu Bello University, Nigeria* 208

Problems Associated with the Development of Fisheries in Tropical Countries: II. *The Modernisation of Fishing Methods.* By R. C. Cole and L. H. Greenwood-Barton, *Tropical Products Institute* . . 215

CONTENTS

REPORTS OF RECENT INVESTIGATIONS AT THE TROPICAL PRODUCTS INSTITUTE

The Market for Drying Oils. By R. N. Horne 39

A Review of the World Trade in Rubber. By F. W. Hibbert . . 99

NOTES

Debut of the Vickers Hovertruck 4

A'BROOK, J., and MCDONALD, D., growth of *aspergillus flavus* (Part III) 208
Ackee, a review 137
Advances in Agronomy, Vol. 15, Edited by NORMAN, A. G., (Book review) 248
Agricultural and Horticultural Seeds, Food and Agriculture Organization publication, (Book review) 179
Aspergillus flavus, growth of, and production of aflatoxin in groundnuts:
Part I 74
Part II 143
Part III 208

BAMPTON, S. S., growth of *aspergillus flavus* and production of aflatoxin in groundnuts (Part I) 74
Le Bananier, by CHAMPION, J., (Book review) 179
Bibliographies 56, 120, 181, 251
Biological control of pests in tropics 200
BLATCHFORD, Mrs. S. M., and HALL, D. W., methods of drying groundnuts
(Natural) 6
(Artificial) 82
Book reviews 53, 115, 179, 248
BOSHOFF, W. H., methane gas production by batch and continuous fermentation methods 155

Cocoa Bean Tests, 1961–62 (Book review) 53
COLE, R. C., and GREENWOOD-BARTON, L. H., problems associated with the development of fisheries in tropical countries II. *Modernisation of Fishing Methods* 215
CORNELIUS, J. A., small scale extraction of palm oil 34

Exotic Trees in the British Commonwealth by Street R. J., (Book review) . 115

GREENWOOD-BARTON, L. H., and COLE, R. C., problems associated with the development of fisheries in tropical countries II. *Modernisation of Fishing Methods* 215
Groundnuts, methods of drying, (natural and artificial) 6, 82
growth of *aspergillus flavus* and production of aflatoxin in . 74, 143, 208

HALL, D. W., and BLATCHFORD, Mrs. S. M., methods of drying groundnuts 6, 82
HARKNESS, C., and MCDONALD, D., growth of *aspergillus flavus* and production of aflatoxin in groundnuts 143
HIBBERT, F. W., a review of world trade in rubber 99
HORNE, R. N., market for drying oils 39
Hovertruck 4

MCDONALD, D., and HARKNESS, C., growth of *aspergillus flavus* and production of aflatoxin in groundnuts 143

McDONALD D., and A'BROOK, J. growth of *aspergillus flavus* (Part III) . 208
Methane Gas, production by batch and continuous fermentation methods 155

News Round-up 1, 69, 131, 192

Oils:
palm, small scale extraction of 34
drying, market for 39

Palm oil, small scale extraction of 34
Patrick Manson by MANSON-BAHR, P. (Book review) 117
Pests, biological control of, in tropics 200
PLIMMER, J. R., and SEAFORTH, C. E., the Ackee 137

Reports published by Tropical Products Institute, 1963 . 55, 119, 180, 250
RICHARDSON, H. L., fertility potentialities and needs of tropical soils . 166
Rubber, a review of world trade in 99

SEAFORTH, C. E., and PLIMMER, J. R., the ackee 137
SIMMONDS, F. J., biological control of pests in tropics 200
Soils, tropical, fertility potentialities and needs of, ... 166

Tropical Products Institute:
Open Days 67
reports published by 55, 119, 180, 250

U.K. Meat Trade Annual and Directory of Animal By-Products (Book review) 54

Vegetable Fibres, by KIRBY, R. H., (Book review) 248
Vickers Hovertruck 4

Wealth of India, Raw Materials, Vol. IV, Supplement. Fish and Fisheries, Edited by SASTRI, B. N., (Book review) 115

LISTS OF PLATES AND FIGURES

Debut of the Vickers Hovertruck

Plate I *page*
A conventional tractor has bogged down whilst the Hovertruck passes it at a good speed . . . *facing* 4

Plate II
Spraying liquid fertilizer on to wheat . . . *facing* 4

Methods of Drying Groundnuts—(Part I) Natural

Figures 1–6
Series of diagrams showing methods of drying groundnuts . . . . . 18 to 23

A Recent Development in the Small-Scale Extraction of Palm Oil

Plate I
From right to left, sterilization drum, fruit reheating drum, and clarification drum . . . . . *facing* 34

Plate II
Sterilization drum in operation . . . . . *facing* 34

Plate III
Primitive method of pounding oil palm fruit . . *between* 34 and 35

Plate IV
Hydraulic hand press for oil palm fruit . . . *between* 34 and 35

Plate V
Tipping crude oil into the clarification drum . . *facing* 35

Growth of Aspergillus Flavus and Production of Aflatoxin in Groundnuts—Part I

Plate I
Photomicrograph of an infected groundnut (x 25) . *between* 74 and 75

Plate II
Infected groundnuts (×25) . . . . . *between* 74 and 75

Methods of Drying Groundnuts—II Artificial Method

Figure 1
Platform-type drier for bags or bulk . . . 86

PLATES

FIGURE 2 — *page*
Trunking system for drying in barns or warehouses . 90

FIGURE 3
An experimental continuous drying system used in Virginia 94

FIGURE 4
A drying arrangement for crops using a shallow bin for quick initial reduction of moisture content, and deep bins for final drying 95

A REVIEW OF WORLD TRADE IN RUBBER

FIGURE 1
World Production of Rubber. 102

FIGURE 2
Exports of Natural Rubbers from producing Countries, 1952–56 104

FIGURE 3
Exports of natural rubber from producing countries, 1957–61 105

FIGURE 4
Imports of natural rubber (average 5 years) . . 106

FIGURE 5
Exports of synthetic rubber from producing countries (average 5 years) 107

FIGURE 6
Imports of synthetic rubber (average 5 years) . . 108

THE ACKEE: A REVIEW

PLATES I and II
Ackee: ripe (open) fruit showing arillus (white) and eight seeds (black) . . . . . *facing* 138

GROWTH OF ASPERGILLUS FLAVUS AND PRODUCTION OF AFLATOXIN IN GROUNDNUTS—PART II

PLATE I
Three types of groundnut shell damaged (a) by trampling, (b) by hoe, (c) by threshing . . . . *facing* 146

PLATE II
Scarification to groundnut shells caused by termites . *facing* 146

METHANE GAS PRODUCTION BY BATCH AND CONTINUOUS FERMENTATION METHODS

PLATE I
General layout of laboratory apparatus . . . *facing* 156

PLATES

FIGURE 1 — *page*

Details of apparatus used in continuous fermentation studies 157

FIGURE 2

The relationship of gas produced in batch fermentations at 32°C and at room temperature . . 161

FERTILITY POTENTIALITICS AND NEEDS OF TROPICAL SOILS

PLATE I

A short-stemmed, high yielding variety of *Indica*-type rice, suitable for mechanized cultivation and heavy fertilizer application. . . . . *facing* 170

PLATE II

African-grown maize, Northern Ghana, showing effects of soil heterogeneity. The fertile patch on the left at the back was probably an old hut site. The poor crop in the foreground is typical of that obtained on unmanured land. . . . . *facing* 170

PLATE III

Harvesting pineapples. When grown commercially, this crop receives heavy fertilizer treatment, including up to 200 lb. of nitrogen per acre annually. *facing* 171

PLATE IV

Mixed cropping and a farm trial with yams and cassava in West Africa. Left foreground: the farmer, who carried out the trials. Right foreground: the district agricultural officer. . . . . *facing* 171

BIOLOGICAL CONTROL OF PESTS IN THE TROPICS

PLATE I

Larvae of a parasite, *Apanteles* sp. feeding on a caterpillar of *Parnara mathias*, a pest of paddy (India) . *facing* 204

PLATE II

Nymph of a predacious bug, *Cauthecona* sp. feeding on Lepidopterous larva (Pakistan) . . . *facing* 204

PLATE III

A Tachinid parasite about to lay its egg on a caterpillar of *Heliothis armigera*. Note ovipositor bent forward under the fly's head . . . . . *facing* 205

II. THE MODERNIZATION OF FISHING METHODS

PLATE I

A Malayan Pukat Payang crew at work . . *facing* 224

PLATE II

A small Arab set net made of unpreserved coarse cotton; the sinkers are of baked clay . . *facing* 224

PLATES

PLATE III — *page*

Maldivian girls preparing coir fibre for rope manufacture . . . . . *between* 224 & 225

PLATE IV

A crudely made hand line can be effective on a good fishing ground . . . . . *between* 224 & 225

PLATE V

Where no harbours are available only small boats can be used; this may limit the development of fishing methods . . . . . *between* 224 & 225

PLATE VI

Arab fishermen overhauling a beach seine; eight men are working with one small net . . *between* 224 & 225

PLATE VII

The traditional Turkeen or box net of the Red Sea is much more effective when made of nylon . *facing* 225

PLATE III

The fishing platform of a Maldivian pole fishing boat is small, so that only three poles can be used at a time . . . . . *facing* 225
